Kerala PWD). In the mean while the Superintending Engineer, Irrigation (Works) Circle, Calicut has intimated in his letter No D 7407/65-2 dated 8.12.68. under flag 'K' that the expenditure for the surveys to be carried out within the Kerala State limits has to be met by the State Government as the work is for a project benefiting the State. He has also further stated that unless the question of sharing of the expenditure is decided and arrangements for meeting the expenditure is made, it will not be possible to start the surveys works in right time.

In the above circumstances the Chief Engineer is requesting the orders of Govt as to the anticipated action

M. G. S.	Subject:	File No.

Taken by the Superintending Engineer, Kalsari project circle in drawing instructed the Executive Engineer, Kalsari Dam Division to proceed with the survey works and to accept the expenditure on the surveys for roads, boundry stones etc and debit the same to the project estimate in anticipation of approval.

The proposal of the Chief Engineer is for consideration with the concurrence of the finance dept.

13/1/69

13.1.69.

It may be seen from the report of the CE that Kerala Govt were asked for the joint surveys of the catchment area and that the surveys are being commenced. The only point on which Kerala party is insisting is the expenditure on the survey being borne by Govt. Since the

Please remarks of PD as above. The Kallini project is being constructed by no certain one State. A portion of the submergence area lies in Kerala. For this we have to compensate that State. The surveys for conducted for acquiring this land are part of Kallini Project and have to be borne by them. There is no portion of it to be borne by Kerala Govt. Therefore the situation envisaged by PD above not arise. PD may see and agree to the proposal of the CE.

Sub:Joint Survey of Submergible area
in Kerala State.

...

Sir,

The Water spread of Kabini Reservoir extend over an area of about 15,434 acres out of which about 254 acres is roughly assessed to be within the Kerala State Limits. Most of the area coming under the submergence within the Kerala State limits would be due to the back water effect. In order to assess the exact extent of the areas and property coming under submergence in Kerala State, joint surveys have to be conducted.

The Chief Engineer, Irrigation, Kerala State, during the discussion held on 22-1-68 have agreed to depute his staff for taking up the joint surveys as already reported in this Office letter No.KRP/54/P.II/113-14/TA1 dated 15-4-1968 and an independent Sub-division known as Kabini Investigation Sub-division is reported to have been sanctioned by the Kerala Government and has been stationed at Manantody under the control of the Executive Engineer, Tellichery. On the part of Mysore Government No.1 dam sub-division, under the control of the Executive Engineer, Kabini Dam Division No.2 has been entrusted with this work as per Government letter No.PWD 11 MKR.68 dated 15-4-1968.

The nature of surveys and other details required to be gathered for this work has to be finalised by holding discussion with officials of kerala Public Works Department. In the mean while the Superintending Engineer, Irrigation North Circle, Calicut has intimated in his letter No.D.7447/65-2 dated 8-12-68(copy enclosed) that the expenditure for the surveys to be carried out within the Kerala State Limits has to be met with by the State of Mysore on the ground that this work is for a Mysore Project. He has also further stated that

...2

unless the question of sharing of the expenditure is decided and arrangements for meeting the expenditure is made, it will not be possible to start the survey works in right time.

As the survey party from the Kerala State is reported to have already arrived, the Superintending Engineer, Kabini Project Circle has stated that the Executive Engineer, Kabini Dam Division, No.2 is being instructed to proceed with the survey works and to accept the expenditure on the surveys for coolies, boundry stones etc.and debit the same to the project estimate in anticipation of approval.

The anticipatory action taken by the Superintending Engineer, Kabini Project Circle may be approved.

Yours faithfully,

for Chief Engineer,
Irrigation South.
